EDUCATION

- **Assam down town University** Guwahati , Assam
Bachelor of Technology in Computer Science and Engineering; CGPA: 8.52/10 2023 – 2027
- **Star Public School** Lumshnong , Meghalaya
Class XII (CBSE, PCM); 87% 2023

EXPERIENCE

- **Indian Oil Corporation Limited (IOCL), Guwahati Refinery** On-site, Assam
AI/ML Intern Jun 2026 – Jul 2026
 - Developed an AI-based PPE detection and safety analytics system using YOLOv8 to identify PPE compliance and safety violations.
 - Trained a custom computer vision model and integrated it into a full-stack web application supporting image, video, and live webcam detection.
 - Built the application with Python, FastAPI, and Next.js, including violation monitoring and safety analytics.
- **Star Cement Ltd.** On-site, Meghalaya
Network Intern Jul 2025
 - Assisted with configuration, maintenance, and troubleshooting of enterprise network devices and infrastructure.
 - Gained hands-on experience with Cisco networking, LAN/WAN infrastructure, and fiber-optic communication systems.
 - Supported network operations, including connectivity troubleshooting and secure networking practices.

PROJECTS

- **SentinelSOC – Security Operations Center Platform** (In progress)
Wazuh, sysmon, Suricata, pfSense, MongoDB
 - Building a centralized SOC platform that integrates Wazuh , sysmon and Suricata for security monitoring, log ingestion, and alert management.
 - Developing threat detection, attack mapping, investigation, and incident management features through a unified SOC dashboard.
 - Implementing automated response and reporting workflows to support security analysis and incident handling.
- **Site Compliance – PPE Detection & Safety Analytics** [\[Code\]](#)
YOLOv8, FastAPI, Next.js, PostgreSQL
 - Built a full-stack PPE detection system around a custom-trained YOLOv8 model for the Indian Oil Corporation Limited internship.
 - Implemented image, video, and live webcam detection workflows with automated processing and visualization of detected objects and violations.
 - Added role-based authentication, detection history, a gallery, violation tracking, and analytics using FastAPI, Next.js, and PostgreSQL.
- **CodeConnect – Real-Time Collaborative Coding Platform** [\[Code\]](#)
React, Node.js, Clerk
 - Built a real-time collaborative coding platform for pair programming and technical interview practice.
 - Implemented live session handling, authentication, and role-based sessions using React, Node.js, Clerk.
 - Developed a shared code-editing experience that lets users collaborate in interactive coding sessions.

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, Bash, SQL
- **Web/Backend:** React, Next.js, Node.js, FastAPI, HTML, CSS
- **Cybersecurity:** Wazuh, Nmap, Burp Suite, Metasploit, Wireshark
- **Tools:** Git, GitHub, Cisco Packet Tracer, Linux

ACHIEVEMENTS

- Placed 1st in the OwlSec 100 Days of Hacking challenge among 300+ global participants.
- Earned the Premium Milestone in the Google Cloud Skills Boost Arcade for two consecutive cohorts (Jan–Jun 2024 and Jul–Dec 2024).
